MANUFACTURED BY:

BRUCE THARPE ENGINEERING  
8622 E EVANS CREEK ROAD  
ROGUE RIVER, OR 97537

541-582-1708

WINGSPAN: 144 inches  
WING AREA: 3680 sq. in.  
LENGTH: 112 inches  
WEIGHT: 48 pounds  
ENGINES: 80-100cc  
PAYLOAD: Up to 30 lbs.

DRAWING SCALE 1 : 20

*This is a slightly-modified Super Hauler. The primary modification was to make it a taildragger. To help with balance, the aft fuselage was shortened six inches. The front fuselage remains the same, except for the landing gear mounting area. The fin and rudder were made slightly taller and narrower to improve overall effectiveness.*
