

THE "POINT THIS WAY >>>" THING:

WING SPANS -  
FRONT : 16"  
CENTER : 24"  
REAR : 32"

ENGINE : TD.049-.051

CONTROLS -  
ELEVATOR  
RUDDER

COMMENTS

Weird, huh? Well, it might fly. Front wing is a flat sheet canard with elevator. REAR WING MUST HAVE REFLEX SO IT STALLS LAST! Otherwise, there will be no recovery from a stall. Removable canard. Should ROG Neat. Ace foam wings
